Reveal City Water Supply Crisis

Officials Cite Need For Speed

Expansion Delay Is Dangerous

Mansfield's need for expanded water facilities has become so urgent that top city officials agree today there must be no delay in bringing into operation the expanded facilities now in progress of construction.

The extent to which Mansfield has outgrown its present water supply was brought home with shocking force to city officials two days before last Christmas, it was revealed.

On that day, the supply in Woodland reservoir became so low that for a time officials considered shutting off water to industry.

The same critical situation confronted the city then on water that industry has faced on gas during the present protracted cold spell, when industrial gas use has been virtually cut off.

PLANTS CALLED

After conferences and careful consideration, however, it was decided to use the water supply right down to the danger point and hope for the best.

Mayor Roy W. Vaughn called all the large local industries requesting them to conserve as much water as possible until the immediate danger passed, but there was no forced shut-off.

Officials decided at the time of the December crisis to withhold gravity of the crisis from the public for fear of creating a hysteria which might have brought more harm than good.

It is frankly admitted by officials, now, that they were gambling against big odds when they permitted water consumption to continue uncurtailed to domestic consumers. What would have happened had there been a big fire—a blaze that would have required use of all fire-pumping facilities—is a thing that officials don't like to think about now.

Pills Fatal To Child, 2

A two-year-old Lexington girl died last night a short time after she swallowed some pills she found in her home.

The little victim was Patricia Earlene Hoffman, daughter of Mr. and Mrs. Earl P. Hoffman, Lexington R. D. 1. The child died at 8:15 p. m., in General hospital.

Coroner D. C. Lavender said death was due to accidental poisoning. He said the baby apparently ate the pills, intended for bladder ailments, about three hours before she died.

The child's father called a physician when he saw the girl "acting sleepy." The physician ordered her rushed to the hospital.

She was born Jan. 8, 1946, at Millersport, O., but had lived most of her life in the Lexington community.

Surviving, besides the parents, are two brothers, Richard and James, both at home, and her grandmothers, Mrs. Julia Gibbs of Pomeroy and Mrs. L. A. Caruthers of Middleport.

Funeral services will be held Saturday at 2:30 p. m. in the Caesarea church in Washington township, with Rev. Jack Mellick in charge. Burial will be in the church cemetery. Friends may call at the Wappner Funeral home until time of services.

Boy Tosses Out Rattle And Prattle

CINCINNATI — (INS) — All over the country, speakers are reciting Lincoln's Gettysburg address, so Cincinnati Rotarians didn't think much about it when they heard Richard Kirby was to do it for them today at their luncheon.

Then they learned that Richard, son of Mr. and Mrs. John C. Kirby, of New York, is only four years old.

Seems little Richard threw away his Mother Goose and rattle and started on Robert Louis Ste enson before he was two. Now, at the drop of a speaking engagement, he pops up with snappy lines from "The Highwayman," "Hamlet" and "The Merchant of Venice."

Taft Invades His Rival's Stronghold

Ohioan Stumps In Minnesota

ST. PAUL, Minn. —(U.P.)— Sen. Robert A. Taft of Ohio today invaded Minnesota, the stronghold of his arch-rival for the Republican presidential nomination, Harold E. Stassen.

His itinerary for the 24-hour stay here did not include any conference with Stassen, Minnesota's former governor.

This afternoon he addresses some 1,100 Lincoln day diners who will pay $3 a plate to hear the speech.

Taft came here from Chicago where he stayed the night after making several appearances yesterday in Indiana.

At Gary, Ind., he deviated from a prepared speech to say that the government may have made "a mistake in indicting CIO President Philip Murray on a charge of violating the Taft-Hartley law.

He said Murray's indictment on charges of violating the law's ban on union political activity might be invalid.

Murray was accused of making political statements in the CIO news. Taft said such statements were legal if published in a regularly circulated newspaper and Murray would not be guilty of breaking the law if the CIO News was in that classification.

Awaits Warm Weather To Bury Son

FARMINGTON, Me. —(AP)— A sealed casket containing Pvt. Earl E. Sawyer's body has been in his mother's parlor since last Nov. 15 because she can't bear to think of it in a cold vault during Maine's harsh winter.

"My feelings on this may seem unusual to a majority of people," Mrs. Rita Brown declared. "But the fact that my son is home again brings me a great deal of comfort."

Sawyer's body will be buried when warm weather comes, she said. He was killed in the battle of the bulge.

PALM BEACH, Fla. — (AP) — Winthrop Rockefeller, 36-year-old "most eligible bachelor," will marry Mrs. Barbara Sears, 31-year-old divorcee here tomorrow, reportedly in an evening ceremony at the home of Winston Guest.

The couple obtained a marriage license yesterday in the little Florida cattle town of Okeechobee, on the northeastern fringe of Lake Okeechobee, county judge T. W. Conely announced.

Winthrop, grandson of John D. Rockefeller, and his bride-to-be were required to wait three days under Florida law before the ceremony could take place. The waiting period ends tomorrow—Friday, the 13th.

Nazi Aid By Allies Claimed

Russia Issues New Charges

MOSCOW —(AP)— Russia says Great Britain and France before the war encouraged Adolf Hitler to turn the German army against the Soviet Union.

She charges they let Germany take over Czechoslovakia and, in the pact of Munich and others, entered into non-aggression agreements with Germany's fuehrer

These accusations were made in a statement issued last night by the Soviet Information bureau. In support of them, the bureau cited German foreign office documents for 1937 and 1938 which it said the Red army had captured.

The statement was Russia's second in reply to publication of papers on Nazi-Soviet relations by the United States. This one said little about the U. S.

DOCUMENTS PUBLISHED

(The U. S. state department published captured documents Jan. 21 which said Hitler and Stalin plotted to split up Poland, dominate the Balkans and shut the western powers out of Europe altogether.)

The Soviet communique said British-French policy before the war was aimed "at isolating the U.S.S.R. and directing Hitlerite aggression towards the east against the Soviet Union, using Hitler as a tool for their own ends."

It declared Hitler's annexation of Austria March 12, 1938, met no resistance on the part of Britain and France and that in the face of Czechoslovakia's appeals for help against Germany under a mutual assistance pact, "the Anglo-French rulers remained implacable."

Farmers Hit 'Fast' Time

Two Rural Groups Oppose Proposal

Two powerful Richland county farm groups last night went on record as opposing the proposed summer daylight savings time here.

Meeting in joint session, the Richland County Farm Bureau Co-Operative board of directors and the Richland Farm Bureau board of trustees passed a motion favoring continuation of the present time set-up.

Warren Smith, president of the farm bureau board of trustees, said the boards voted that no time change was needed "or would be welcomed by farmers."

He said the groups represented 3,000 rural families in Richland county.

Last week a city council committee was named to study the feasibility of "fast" time. Councilman Harry Hollingsworth said an attempt to submit the issue to a referendum might be made.

An attempt to introduce daylight time here failed last year. The United Rubber Workers Union waged a campaign for the proposition but farmers opposed it.

Dewey to Assail Truman Policy

ENROUTE TO BOSTON WITH DEWEY — (AP) — Gov. Thomas E. Dewey will accuse the Truman administration tonight of serious "failures" in handling America's foreign policy and propose a "constructive" plan for building a "lasting peace." The New York governor will deliver his attack in a Lincoln day speech at Boston.

It is his first major address since he became an avowed candidate for the Republican presidential nomination last month and his third invasion of doubtful New England in the last five months.

Provides $50 After Age 55

McGregor Offers Vet Pension Bill

Details of a pension bill, introduced by Congressman J. Harry McGregor of the 17th district, which would give veterans of World Wars I and II $50 a month at the age of 55, were released today by the congressman.

Introduced in the House of Representatives, the measure provides pensions of $50 a month for veterans between the ages of 55 and 60 and an additional $2 per month for each year of age over 60.

The pensions would be paid to all veterans who served in the armed forces between April 5, 1917, and July 3, 1921, and Dec. 6, 1941, and March 16, 1947, and who were honorably discharged from service either after 90 days or more of service or for disability incurred in line of duty.

Under the bill, a pension of $100 a month would be paid to a veteran if he is 55 years of age or over and is helpless or blind or so nearly helpless or blind as a result of physical or mental disabilities that he needs the regular aid and attendance of another person.

"If money can be sent to soldiers and others in foreign countries, certainly the same recognition should be given to the people at home," McGregor said.

McGregor, seeking re-election on the Republican ticket, has no opposition in the May primaries. He will be opposed in the November election by Robert W Levering, Mt. Vernon attorney and a veteran of World War II. Levering is unopposed for the Democratic nomination for Congress in the 17th district which includes Richland county.

River Ice Piled High

CINCINNATI —(U.P.)— A mountain of ice 30 feet high piled up in the Ohio river 30 miles upstream from here today, building up pressure that U. S. Army engineers said could bring an ice avalanche sweeping downstream "at any moment."

In the path of such a sweep are tugboats, loaded barges, harbor and club boats and many pleasure craft valued at hundreds of thousands of dollars

The new jam, building up at Neville, five miles below dam 34 at Chilo, is replacing the jam above Coney Island as the "key log" which may set millions of pounds of ice into motion, engineers said.

A spokesman for the engineers feared the ice might crash through the Coney Island gorge and then sweep into Cincinnati harbor.

At least four towboats and 18 barges were trapped yesterday when ice broke loose yesterday at Chilo.

Market 'Leaks' Denied

Grain Speculator Will Be Called

WASHINGTON —(U.P.)— A New Orleans cotton expert told congress today that he never has known nor even heard rumors of "leaks" of inside information from the agriculture department that would help commodity speculators

The statement was made by E. F. Creekmore, president of the cotton shipping firm bearing his name. He represented the American Cotton Shippers association.

Creekmore's statement was made as it was learned that E. T. Maynard, the shrewd Chicago speculator who made over $200,000 in the commodity market break may be called before Senate investigators Monday to reveal his "system."

Creekmore told the Senate Agriculture committee that no crop forecasts or other helpful information ever has gone in advance, to his knowledge, to anyone.

Creekmore testified against a bill which would permit the secretary of agriculture to set margins up to 100 per cent on futures dealings on the commodity exchanges.

Presently, the exchanges are merely cooperating with the federal government in the setting of margins. Voluntary margin requirements on the Chicago Board of Trade are 33 1-3 per cent.

Bullet Kills Woman, 27

Man Wounded In Mystery Case

PORTSMOUTH— (INS) — Mrs. Mildred Rogers Harris, 27, was found shot to death early today, and her night club companion, Robert Nolan, 26, was wounded in what Portsmouth police described as "most mysterious" circumstances.

Records showed that the police received a call from Mercy hospital at 1:20 a. m. reporting that Nolan had been shot with a .38 calibre revolver about 1:00 a. m.

Police went to the hospital to question Nolan, and at about 2:00 a. m. five men went to Nolan's home near the Ohio river waterfront. They left the area shortly thereafter.

Returning to the east side residence at 3:32 a. m., Police Lieutenant Harold Cooper discovered Mrs. Harris's body, a .38 calibre bullet wound through the heart, lying face down in the ice and snow in the middle of the street.

A .38 revolver with two cartridges discharged, was under the body, but the hands were not touching the gun.

Police reported that Nolan at first refused to tell who shot him, but said it was Mrs Harris after he was notified her body had been found

New Tire Synthetic Revealed

Development of a new type synthetic rubber which is expected to increase passenger car and truck tire wear by as much as 20 per cent over natural rubbers, was announced today by G. W. Stephens, president of The Mansfield Tire and Rubber company.

The new rubber, called "Ultipara", was developed at the Copolymer Corporation in Baton Rouge, La., which is operated by Mansfield Tire and seven other tire manufacturers. Stephens is vice president of the Copolymer plant.

The revolutionary new product will go into large-scale production on Friday, Feb. 20 at Baton Rouge and output will be divided among the operating firms. Tires made from Ultipara will be available to the public in limited quantities within the next 60 days, Stephens said. Mansfield Tire will be among the first to produce them.

Ultipara tires are said to offer increased mileage and greater resistance to tread splitting. Proving ground tests show that Ultipara is superior to natural rubber in truck and passenger tire treads in all major respects, Stephens said.

LESS EXPENSIVE

He added: "Technicians have found that Ultipara is more like rubber than rubber itself Natural rubber is an unsaturated molecule and therefore is subject to oxidization. Anti-oxidents are necessary to prevent oxidization and cracking. Ultipara is partially saturated, resisting oxidization and tread cracking."

Actual production of the new "wonder" rubber is reported to cost about 18½ cents a pound — the same as other synthetic rubber. Natural rubber costs 20 cents. The annual capacity of the Copolymer plant is 30,000 tons. This is sufficient rubber to make 5,000,000 tires, for both passenger and truck use.

The Copolymer Corporation is a privately-owned and government-sponsored producing, research and development organization.

The production method of Ultipara differs radically from accepted formulas and is controlled by the United States government. Ultipara is expected to be made available to all rubber manufacturing companies later.

Tire companies which form the Copolymer Corporation includes besides The Mansfield Tire and Rubber company, Dayton Rubber Company, Dayton, O.; Gates Rubber company, Denver, Colo.; Armstrong Rubber company, West Haven, Conn.; Lake Shore Tire and Rubber company, Des Moines, Iowa; Lee Tire and Rubber company, Conshohocken, Pa., and the Inland Rubber company, Chicago, Ill.

Gas Blast Kills Man

ASHLAND — Garey Echelberger, 41, of Hayesville, was fatally injured Wednesday when struck in the face by a cement manhole cover he was attempting to thaw out to reach frozen water lines at the Hayesville intersection of Routes 30 and 60.

The accident, occurring shortly before noon, resulted when Echelberger applied a blowtorch to the frozen manhole cover at the intersection near the Eddie Stover millinery store.

Sewer gas is believed to have caused the cover to burst from its moorings and strike Echelberger directly in the face. He died en route to Samaritan hospital of a fractured skull, crushed face and jaw.

Echelberger, who was unmarried, is survived by his parents, Mr and Mrs. Ralph Echelberger, and two brothers, Charles and Roger, all of Hayesville; another brother, Frank, of Mansfield, and three sisters, Mrs. Walter Wendland of Mansfield, Mrs. Foster Tuttle of near Hayesville and Mrs. Lloyd Strine of Hayesville.

Funeral services will be held at 2:30 p. m. Friday at the Hayesville Methodist church. Burial will be in Hayesville cemetery. The family has requested that flowers be omitted. The Denbow-Bear Funeral home is in charge.

Cost Cut On Meat And Soap

Bread Reduced In Youngstown

Lower food prices for the week end were quoted today by Mansfield grocers.

Bacon and ham were offered in most stores as much as 12 cents below the levels prevailing at the first of the week.

Lard dropped a cent a pound today. Other brand shortening and margarine began to come down. Beef dropped one or two cents a pound, extending its price dip to 10 to 15 cents a pound from three weeks ago.

Most stores still offered bread at 18 cents for a standard-size loaf. A flurry of expectation developed, however, with the announcement by the large bread suppliers in Youngstown of a reduction from 18 to 16 cents a loaf.

SOME CUT HERE

Only large Mansfield stores reported reducing bread prices so far have been Kroger Baking & Grocery company and Sternbaum's Complete Food Mart. Both cut bread a penny a loaf Monday.

Carl Sternbaum asserted that since then one of the large suppliers had reduced his deliveries from 70 to less than 10 loaves a day. He said he had arranged a replacement supply and hoped to meet the 16-cent Youngstown price within a week.

Elsewhere in the nation, prices also continued to drop. Procter & Gamble and Lever Brothers, largest manufacturers of soap in the United States, announced price reductions of 5 per cent.

GRAIN MARKET CLOSED

Butter prices fell four cents a pound in Cleveland and margarine three cents. Kroger officials there said similar reductions would be made in salad and cooking oils.

A counter-trend developed in Akron. Barbers, which have been charging 90 cents for a haircut, voted last night to increase their rates next week, probably to $1.10 or $1.25.

Grain prices, which have skidded sharply for the last week, had a holiday in observance of Lincoln's birthday. The nation's grain markets were closed but the livestock markets generally were steady with prices for cattle, hogs and sheep holding around the levels to which they skidded earlier in the week.

The New York stock market also was closed today.

Rain, Snow Cover City

Mansfield was covered with a mixture of snow, sleet and rain last night, as the mercury fell slowly from a high of 35 yesterday at 4:30 p. m. to 27 at 10:30 a. m. today.

Highway conditions roads in the county were reported as "slippery" by the state highway patrol and traffic last night was hampered by the rain and fog.

Although the mercury climbed to 29 degrees at noon today, the weatherman predicted that it would be mostly cloudy and colder tonight and Friday.

The weatherman predicted that a "mild cold wave" would hit the state tonight, although temperatures probably would not fall below 18 degrees any place in the state.

Meanwhile, the Ohio Fuel Gas company continued its 90 per cent restriction on gas to large industries, although smaller plants and commercial establishments were being supplied with gas at a normal rate. The curtailment on small concerns was relaxed yesterday.

Cars Derailed By Snowslide

ALAMOSA, Colo.—(AP)—A massive snowslide thundered down on a tiny narrow gauge railroad train last night, tumbling three coaches down a mountain gorge but those aboard miraculously escaped death. The cars were hurled hundreds of feet.

Two train crew members were hospitalized today with injuries and a dispatcher for the Denver and Rio Grande Western reported that all the 11 passengers were shaken up.

The passengers and members of the train crew arrived here this morning after a two hour, 15 mile trip from the wreck scene.

Thousands Watch Hindu Burial Ceremony

Gandhi's Ashes Placed In Sacred Rivers

ALLAHABAD, India—(AP)—The mortal remains of Mohandas K. Gandhi, the beloved man who ranks almost as a saint in this land, were immersed in the waters of three sacred Hindu rivers here today.

Tens of thousands of persons witnessed the ceremony, which took place just after 2 p. m. at the confluence of the Ganges, Jumna and Saraswati rivers.

Among the witnesses was the prime minister of India, Pandit Jawaharlal Nehru.

Others who watched included members of the central government, the governor of the united provinces, and ministers of the local government.

The special train carrying Gandhi's ashes arrived at Allahabad station at 9 a. m. Nehru, who arrived in Allahabad by airplane yesterday, was at the station to greet the train of third-class coaches bearing the funeral urn.

A guard of honor escorted the urn to Triveni Sangham, confluence of the three rivers, for the final ceremony.

The urn was carried from the station and placed on a trailer. To the accompaniment of a booming salute of cannon shots—one for each year of Gandhi's 78—and the sounding of conch horns, the procession started.

A quarter of a mile from the station the procession passed the Angelican Cathedral of All-Saints, where the cortege paused briefly while the crowd before it sang Gandhi's favorite hymn "Lead, Kindly Light."

Wheeling slowly to the right, the procession went along Canning road, the main thoroughfare of Allahabad, on its way to Triveni Sangham.

It passed between huge, silent crowds who lined the way to Triveni. The march from the station to the confluence of the rivers ended at 12:30 p. m.

Labor's Drive to Swing Election Meets Double Trouble

Union Ranks Show Split In Loyalty

Jury Indictment Hits Spending

WASHINGTON —(AP)— Organized labor's drive to swing the 1948 elections ran into double trouble today.

The two big complications seemed to be:

1. The possible chilling effect of a grand jury indictment on union political spending.

2. Divided political loyalty within the ranks of both AFL and CIO.

The indictment was reaurned by a federal grand jury here yesterday. It cited the CIO and its president, Philip Murray, under the section of the Taft-Hartley act which bans use of union money for political purposes.

A CIO strategist said privately the indictment is bound to discourage unions from campaign spending.

Even if the unions doubt the government can make the indictment stick, he said, "as a practical matter it will deter them."

The CIO contends the section of the law involved is unconstitutional. Its lawyers hope to get a supreme court ruling before the high tribunal takes its summer recess in June.

Both the AFL and CIO have as their aim the defeat of congressmen who voted for the Taft-Hartley act. But both are finding it hard to make their members stay hitched to a single line of political action.

As for the CIO, a group of its unions representing about 1,250,000 of the CIO's claimed 6,000,000 members have indicated they may support Henry Wallace's third party. Murray and the rest of the CIO have come out against a third party this year.

Friendly House Facilities Overtaxed, Report Shows

For the first time in the history of the Friendly House, enrollment during the past year made it necessary to limit attendance in the kindergarten to five-year-old children, the annual report showed today. Thirty-seven five-year-olds were enrolled during the year.

The annual report was presented to the Friendly House board last night by Russell Gimbel, F-H director.

Activities at Friendly House during 1947 involved a total attendance of 38,292 or an average per month of 4,536 for the fall and winter program. There were 734 enrolled in active membership with more than 400 in affiliated groups. Persons of 25 nationalities used the Friendly House facilities.

The annual season at Hidden Hollow camp was the largest ever held. When the camp was opened in 1941, only 75 were enrolled for a three-week period. In 1942 the period was increased to seven weeks and attendance to 179. Last year, there were 568 camp weeks with 308 campers.

During the past year each of the 308 attended an average of 1.8 weeks. Total cost of operations was $5,919.

NEED MORE SPACE

"Looking into the future, we realize that the 28 acres is not sufficient to accommodate the anticipated number of campers," Gimbel said. "If the success of the camp is to continue, this matter must be considered in the future."

The biggest task ahead for 1948, Gimbel said, is the erection of the new $250,000 building on North Mulberry street.

"With the new building, it will be possible to increase the scope of activities and volume of work," Gimbel said. "The city has responded to the need and we of Friendly House hope that we will be able to fulfill the job before us."

Witnesses to whom he tried to sell the instruments said Burton told them the instruments were "hot."

Attorney Robert W. Lett represented Burton and Prosecutor Theodore Lutz and Assistant Prosecutor Claude F. Ewing represented the state.

Essential To Progress

Crisis In Water Supply Shown

(Continued From Page 1)

the Woodland reservoir, with a maximum capacity of 6,000,000, or 18 feet of water, was down to about 2,250,000 gallons or seven and one-half feet, though officials stated that they "don't like to let the water level fall below nine feet."

The primary cause of the sudden shortage was a combination of a steadily increasing daily demand on the part of both industrial and residential users, plus a sudden drain on the city system caused by one plant using a great deal more city water because one of its own wells had run dry.

FIRES BIG DRAIN ON SUPPLY

In the fire which recently hit the bus garage, 270,000 gallons of water were pumped in three hours. It is estimated that fire-fighters poured 1,000,000 gallons of water on the blaze that destroyed the Quality Furniture store several years ago.

When it is considered that on last Dec. 23 there were only 2,150,000 gallons of water in the reservoir available for all uses in the city, and when it is considered that the average daily rate of water consumption is between 5,000,000 and 6,000,000 gallons which is very close to the maximum pumping capacity, the crisis reached at that time is readily understood.

Officials agree that a bad fire on that day would have meant one of two things—the city without water or without means of fighting the fire.

Another fact that must be taken into account is that there are two pipes that lead into the city from the Woodland reservoir. One, 16 inches in diameter is situated at the bottom of the reservoir and can draw water until the site is dry. The other main, 20 inches in diameter, is located seven feet from the bottom, and if water falls below that level, the 16-inch main would be the only one servicing the city.

CONSUMPTION ON INCREASE

With the average yearly increase, based on figures for the last two years, more than 330,000,000 a year, and with industrial and domestic consumption increasing at an increasing rate (300-400 domestic taps are being added to the system each year), the need for rapid completion of the Clear Fork project to guarantee the city against a water famine becomes starkly realistic.

At present level of water is 8.4 feet, and the industrial plant that caused the recent drain on the supply has drilled a new well, thus reducing its demand on the city.

What will happen this summer, especially if it should be exceptionally dry, seems to be anyone's guess, but city officials hope that they can complete the 24-inch pipeline and the new high-lift pumping station and get more water from the existing system.

With that completed, and immediate danger will be past, but the critical need for the 4 billion, 400 million gallons to be impounded behind the Clear Fork Dam will still remain.

Influence of Lincoln Extends Far

IN THE MIDST of such turmoil as now exists, with the dissension in Washington reflected throughout the country, it is natural that some resemblance should be seen to the years through which Abraham Lincoln served, and the wisdom he displayed in handling the difficult problems of his time.

The past year was marked by enlivened interest in Lincoln, because of the opening of many documents having to do with his era. These passed to the custody of his son, Robert, who stipulated they were not to be opened until 21 years after his death, which made last July 26 the date on which the restriction ended. Ceremonies in the Library of Congress, with scores of scholars and newspaper men in attendance, marked the occasion, and much space was given to recitals of contents of the documents, although no startling revelations were made.

There will continue to be additions, however, to the already vast bibliography on various phases of the remarkable man whose birthday anniversary is being observed today, and the unfailing interest of millions of Americans in everything that touches on the life story of Lincoln—his principles, practices and ideals—augurs well for the sound thinking of a majority of the people of this country, upon whom the nation's destiny depends.

A loss to Mansfield, which many regret, was the abandonment of an annual Lincoln day banquet, sponsored by the Richland County Lincoln Society, which was held regularly for many years, each time with a speaker of national prominence, and with attendance always up to capacity of available meeting places.

Schooling of today's young people sometimes seems to neglect attention to outstanding figures in American history, but there should be no minimizing of the importance of every child and adult learning enough about the boyhood and manhood of Lincoln to encourage development of qualities that reflect true Americanism.

Price-Lowering Requires Co-operation

A TROUBLESOME question—as retail prices of some commodities show a slight drop—is the extent to which this drop can continue without bringing on a disastrous depression, rather than a desirable "recession."

Thus far the skidding of grain prices, slump in livestock demands and agitation in the stock markets have not sifted down to the consumer level, except for a few food items in which savings are inconsequential as compared with the whole field of excessively priced merchandise.

It seems reasonable to allow a brief period for readjustment of prices to a lower level, due to the intricate procedure of distribution from producer to processor to wholesaler to retailer—but unless this is expeditiously accomplished there will be justification for consumer complaint.

An unfortunate phase of the situation is the appearance of determination on the part of some labor organizations to continue demands for still higher wages—apparently based on assumption of further increases in living costs, rather than giving encouragement to the present downward trend by indicating willingness to forego further wage boosts until opportunity is given for such price readjustments as now seem to be getting under way.

New Recreation Site Promised

MANSFIELD residents, generally, and sports enthusiasts in particular, will be pleased with the first step taken to make the Clear Fork reservoir area a recreation site. Rapid development of the boating and fishing facilities at Charles Mill lake over the past few years indicates how eager residents of this vicinity are for better recreation close to home.

The Clear Fork area should make an ideal addition, with scenic picnic spots and possibility of good fishing.

Of course, a great many details remain to be ironed out. A little more airing might be given the question of whether the city should retain full control of the land or lease it to the state which would, in turn, maintain and regulate the area. Other questions will arise as the project takes form.

Most important to keep in mind is that pollution of the reservoir must not be permitted and that the first task is to get more water for the city as quickly as possible.

Farmers Reduce Mortgage Debts

WALTER B. GARVER, agricultural economist for the Federal Reserve Bank of Chicago, in a report based on statements from midwest farmers, declared recently that these farmers have made heavy reductions in their mortgage debt during recent years. He believes, however, that they might have done even better.

Over the nation as a whole, bank balances have been accumulated by farmers, and government bonds purchased, with the result that such reserves amount to more than four times the mortgage debt. If these reserves remain, the farming population will be protected to a great extent against a future recession, and careful buying and planning should make this possible.

If, as the bankers say, farm mortgages, while being considerably lowered, have not been pulled down as much as would have been possible, there are probably good reasons. Conditions of farm living have been immeasurably improved during the past decade. Agricultural machinery has been purchased in large quantities, homes have been comfortably and efficiently equipped, children well clothed and educated, and vacation trips have broadened the horizons of many heretofore farm-bound families.

These uses, together with the bank reserves and investments, show that the good incomes of recent years have been spread over a wide area with benefit to all concerned.

In case you have lost track of it, Tojo's trial is still in progress in Tokyo.

Raymond Moley's Analysis

Figures Reveal Reasons For Decline

ONCE MORE, the massive fecundity of Mother Earth has routed the pretensions of short-sighted men. Proposals for price control, which were plausibly offered as indispensable a few weeks ago, are now mere embarrassments to those who suggested them.

Natural law, once derided by President Roosevelt as a cure for economic troubles, seems to be working once more. And when natural law operates, it uses an axe.

It is not difficult to see why wise people have been selling grain. They have been keeping up their home work far better than the people in Washington who want to regulate us. The administration has been thinking in last year's figures. The market has noted last week's figures.

One of the dangers into which the administration has fallen has been too great reliance upon the figures of the International Emergency Food Council. Throughout 1946 and 1947, this body presented most formidable estimates of world export requirements and exceedingly pessimistic estimates of grains available for export.

Repeatedly, these estimates have been proved to be too gloomy. As long ago as the spring of 1946, Herbert Hoover, after his trip around the world, reduced their estimated requirements by two-thirds.

In October, the I.E.F.C. figured world requirements at 50,000,000 tons and the exports available at 29,000,000 tons for the fiscal year July 1, 1947 to June 30, 1948. The President's Cabinet Committee for World Food Programs accepted the figure of available exports at 29,000,000 tons, but scaled down requirements of 33,500,000 tons. That estimated gap of 4,500,000 tons has had a lot to do with skyrocketing prices.

* * *

"Gap" Has Disappeared.

FIGURES made available to this column at that time by Dr. Julius Hirsch and Edith Hirsch made these official figures very doubtful. Accordingly, three months ago this column expressed disagreement about the estimated "gap."

Four weeks ago, it expressed doubt again and conclude that "a fair interpretation of available facts throws a rather favorable light on the prospects of natural checks on inflation in 1948. For food is the heart of the problem."

These facts are now apparent to the market and seem to be dimly appearing to the administration. And the cream of the jest is that most of the figures now appearing come from the grab-bag of government statistics.

The so-called "gap" of 4,500,000 tons has apparently disappeared on the basis of developments over the past two months. The figures showing this are available to all. They appear in "Foreign Crops and Markets," a publication of the U. S. department of agriculture, and in Broomhall's "Corn Trade News," a very reliable British publication.

They show that when increases in the grains available for export from all countries except the United States and Canada are summed up, the total is 33,825,000 tons, instead of the 29,000,000 tons predicted by the administration last fall. This figure also does not take account of the possibility of better crops next year.

The political and economic implications of this newly-discovered situation are very important. They will require political parties and business organizations drastically to reshape their plans.

TODAY IN HISTORY

Thaddeus Kosciusko, noted Polish general who distinguished himself in the American Revolution, was born on February 12, 1746. In 1794 he was a leader in the Polish insurrection was defeated, captured, and later retired to Switzerland.

Dave Boone Says:

THIS is National Heart (or give-your-ticker-an-even-break) week. If it awakens folks to the fact that the human heart is just a pump, not a turbine or an atomic plant, a lot of lives will be saved.

* * *

It's strange how a man will worry about all the rest of his insides, dosing himself with pills for a heap of ailments, and never give a thought to his heart until he finds himself flat on his back.

* * *

Ninety-nine men out of a hundred are familiar with all the symptoms of scores of illnesses but will always dismiss a heart symptom as a little gas attack.

* * *

This sloppy or fatalistic attitude toward the heart is hard to understand in a world that gets so disturbed by things like falling hair and pink toothbrush.

Speaking of Hard Work

By THOMAS L. STOKES

ON TOUR with Senator Taft—Senator Taft of Ohio is out on the road again in earnest quest of the Republican presidential nomination. His trip will include Illinois, Minnesota, Nebraska and Colorado.

It is just another bit of evidence of what has become almost a phenomenon This is how early the presidential campaigns started for this most important political year of 1948, how much interest they attract as manifest by the number of newspapermen who go along, and how far advanced this business is already. It is perhaps a bit late, even amid the snow and ice of February, to observe how it all began.

For it started in the heat of last summer, nearly a year before the conventions of both major political parties, when Senator Taft and Governor Dewey of New York took to the road. Each was trailed through the west by groups of newspaper correspondents.

Long before that, as a matter of fact, another contender for the Republican presidential nomination, Harold Stassen, was beating about the country on his own, making speeches.

When the Taft and Dewey processionals made it evident that the campaigns really were on, then Mr. Stassen also attracted an escort of newspaper chroniclers on an extensive airplane jaunt to the West and South last fall.

Mr Stassen was first out in the new year, with an airplane trip that took him again to the West, Southwest and South, followed up quickly by a foray into New England—all to excite wonder about what a man will endure to try for a four-year lease on that big, draughty house at 1600 Pennsylvania avenue in Washington.

* * *

Disciples of Teddy.

THE "strenuous life" once advocated by Teddy Roosevelt is the fashion this year for men who want to be president.

And now Senator Taft is back on the road to prove that, and to testify to the ambition that consumes some men. For the Ohio senator works ordinarily like the legendary beaver, day in and day out just as routine, directing policy for his party in the Senate.

To make the current trip he took advantage of the customary lull in Congress at this time of year to permit Republican leaders to go hither and yon to make speeches in connection with the birthday of the party's founder, Abraham Lincoln.

Twenty-seven newspapermen are accompanying the senator on his trip, including two representing British newspapers and one a Swiss newspaper This reflects European interest in his political fortunes.

Senator Taft is on the move in what looks like a critical stage of his candidacy, judging from the polls that indicate that he, among leading Republican aspirants, would run least well against President Truman.

He has, however, strong backing among organization leaders which often translates more readily into convention votes than does popular favor.

All of the activity, and so far in advance, is a healthy sign for our democratic process. This is a year when our people are called on to make some of the most vital decisions of their history.

This year, more than usual, people have been able to learn the views of the principal candidates ahead of the conventions. That should mean something. It should prevent a pig-in-a-poke selection.

One Man's Opinion

BRITISH Singer Maggie Teyte says "A woman's age first shows in her elbows" . . . That explains why men are so easy to fool . . . The number of men who notice a woman's elbows could be counted on one elbow.

Nevertheless, now that the secret is out, plastic surgeons can expect requests for bids on lifting a pair of elbows to match the age of the remodeled face.

But it's a new slogan for the advertisers . . . "She's lovely, she's engaged, she used elbow grease."

And we fellows are getting a new look . . . a tuxedo with a battle jacket . . . Not so much in demand in the east but a "must" for Hollywood where most battles are fought in tuxedoes.

Friendship Spirit Continues To Spread

By DREW PEARSON

WASHINGTON — When the first Friendship Train finished its run across the country, Henry Kaiser, who acted as special conductor on the New York Central division, suggested that one way to solve European relief was to let the American people run a series of Friendship Trains from different parts of the country.

My reaction was that it couldn't be done. In the first place, the job seemed too tremendous. Second, I thought we had imposed enough on the railroads for free freight.

Finally and selfishly, I told Henry that my office had been turned topsy-turvy by the job of running one Friendship Train, that I was a physical wreck from riding on it, and that I didn't see how any more trains could be organized.

However, Henry Kaiser was right. Even as we talked, the Wichita Eagle and other energetic citizens of the Southwest had organized a special wheat section of the Friendship Train Simultaneously patriotic New Englanders had started organizing a Friend Ship carrying food and clothes to the British Isles, while today two Abraham Lincoln Friendship Trains leave from Lincoln, Neb., and Springfield, Ill.

So it is appropriate and fitting on the birthday of the Great Emancipator to review the attempts of many Americans to carry out his advice: "It is for us the living . . . to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced."

So much of this work has been carried on by individual citizens and groups of citizens that it is hard for any newspaper to cover it all. But it illustrates the fact that the American people have a deep and almost religious concern for the welfare of their fellow men; also that they themselves want to play a part in American foreign policy, not leave it entirely to diplomats.

And if the Marshall Plan is able to harness this initiative, if it is able to use this healthy desire of the American citizen to be an active part of his own state department—then the Marshall Plan will be a success.

Unquestionably, a central, coordinating agency such as that provided for under the Marshall Plan is necessary to direct European reconstruction. However, the wise Marshall Plan administrator will go out of his way to use the tremendous drive and desire of the American people to help their fellow men.

For instance, here are just a few of the things individual Americans, quite independent of their government, have done to carry on "the unfinished work" and build friendship abroad

* * *

Maine To Louisiana.

UP IN MAINE, a state which the Friendship Train could not visit, the Bath Iron Works received an order to build 30 fishing trawlers to replace part of the French fishing fleet lost in the war. And instead of sending these ships to France empty, the 33 Rotary clubs of Maine undertook to fill the first trawler, "The St. Patrick," with food and clothing for the people of France.

And on the other side, the Rotary club of Nantes, France, has enthusiastically agreed to distribute this food and clothing in such a way as to build up French and American friendship.

In another New England city, the Eastport, Me., Sentinel carried an editorial suggesting that the sardine industry contribute a carload of sardines to the Friendship Train. Whereupon the Maine Sardine Packers Association raised a carload and sent it to Europe through the Unitarian Service committee.

Meanwhile, down in New Orleans, which the Friendship Train had to bypass, various patriotic citizens got together and decided to adopt the city of Orleans, France.

"While the city of Orleans, France, was being bombed," says Mrs. Henry Landry, head of the Orleans foundation, "our own New Orleans gained 100,000 in population. We are prosperous. So we are giving a little of our surplus to the starving people from whence we came."

Accordingly, the SS Maid of Orleans is sailing from New Orleans the latter part of this month loaded with food.

Out in Detroit the other day, Jean Behard of the French embassy was addressing the Michigan Junior Chamber of Commerce which raised a friendship caravan for France. Suddenly he got a phone call from Kalamazoo

"This is Henry Ford speaking," said the voice on the other end of the line. "No, not Henry Ford, the auto man, but Henry Ford, the mayor of Kalamazoo. We've adopted the city of Fougeres in France, and we want you to come over and give us a brief talk."

Behard went. He reported to his government later that he has never seen a group where enthusiasm was so contagious.

* * *

Friendship Seeds.

MEANWHILE the seed-growers of Minnesota have worked out a counterpart of the CARE program, whereby packages of seeds can be sent to European families so they can grow their own food. Reducing prices from $5.50 to $3.95, the seed-growers have arranged so that anyone can walk into a seed store in any part of the country and consign a package either to a friend in Europe or to an American relief agency which will distribute the seed. Enough seed to grow five tons of food is contained in each package.

One Father's Sacrifice

By KENNETH L. DIXON

MUNICH—Call her Mary. That name will do as well as any, and it's impossible to use her right name now. Besides, there may be many others whose stories are not too dissimilar, so anonymity can cover them all.

If things work out right, Mary will be going to the United States one of these days. For a while, it looked as though she wouldn't make it, but now she probably will.

A beautiful, sad-eyed Jewish girl of about twelve, she has spent more than half her life behind the barbed-wire of either concentration or displaced persons camps.

Nevertheless, with that will to survive and learn which somehow, sometimes seems to live despite even the worst conditions, she has managed to get quite a bit of education.

Among other things, she speaks English with a halting, hesitant purity—but it was not she who told us her story. It was her father's friend, and Mary does not even know he told it.

For that matter she has never been told the most important part of the story, but perhaps she senses it.

The gas chamber and crematorium of nearby Dachau claimed her mother's life long ago. Her father managed to escape death narrowly several times during their long stay in the various camps.

Then, when the war was over, they joined the thronging thousands who lined the roads of central Europe.

They slept in ditches, barns—anywhere they could. They ate whatever they could find, whenever they could find it. Mostly, her father didn't eat, tricking Mary into thinking he had eaten in order that she could have his share.

* * *

Obstacle Dashes Hope.

FOR himself, he had little hope anyway. He had seen too much, suffered too much, lost too much. But he stayed alive for one reason. In New York City lived some relatives. He wanted to send Mary to them.

Eventually they passed, with other thousands, through the gates of a D. P. camp in Germany, and life behind barbed wire began for them again. After a month they worked and struggled on a slow starvation diet.

Meanwhile, he started proceedings to get Mary passage to America He managed to get paper and pencil and letters were written to the New York relatives.

But it took a long time for their right address to be found, and still longer for the replies to return through the vast displaced persons postal clearing house in Europe.

He found that, because of technicalities, there was no hope for him to go to America, but he had not expected that anyway.

However, the relatives were eager to adopt Mary, and they filled out all the applications and forms and made the necessary arrangements.

Finally, nearly three years after the war had ended, it seemed that Mary soon would be on her way. Then, a few weeks ago, her father learned that he should have known all along, but somehow had misunderstood—that Mary could not be adopted by Americans as long as she had any immediate relatives alive in Europe.

The entire project promptly fell through, and Mary resigned herself to endless months and years in D. P. camps.

* * *

Father Finds a Way.

FOR several days, her father brooded. Then, he had an inspiration. For appearances sake, he had himself transferred to another camp, leaving Mary with friends. He told everyone that there was a special kind of work he could do at the other camp which was not required at this one.

He said goodbye to Mary quietly, telling her only that if something happened to change the regulations and she left for America without seeing him, to always be a good girl. She promised.

At the other camp, he wasted no time. In a few days, the friends received a letter from him. They took it to officials who hurried to the other camp. It was too late.

On the way back, they stopped off to refile Mary's application to go to America. Then they told her gently that her father had died.

They did not tell her, but perhaps she knew, that he had hanged himself to make her officially an orphan—and thus eligible for an adoption passport to America.

Training Saved Lives.

It would be interesting to know how many persons in the course of a year in this country owe their lives to emergency safety procedures taught young people in such organizations as the Girl Scouts, to which 13-year-old Marilyn Boley belongs.

The total must be impressive, for the tales of rescues by youngsters like her appear regularly in the press here and everywhere.

Marilyn, a baby-sitter, saved four small charges from a burning home, without damage to herself or any of them because, as part of her Scout training, she had been told what to do in case of fire.—Detroit News.

More About Radio

By CALVIN A. BYERS

MY RECENT diatribe about radio murder mysteries and their effect on children brought plenty of mail. It seemed, in fact, as if that single "knock" of mine got more accolade than most of my positive, constructive pieces do! Do you want me to start finding fault as a regular habit?

Four or five letters, though, defended the very good programs recently given over the radio.

In today's mail came a schedule of program topics called "Generation on Trial," to be heard over WLW every Saturday at 7 p. m. EST. This broadcast will make dramatic our stake in our natural resources, and tell what each of us can do about it Don't miss it!

* * *

BUT the most interesting bit of radio news I have seen was embodied in an article in Saturday Review of Literature, Jan. 31 issue, where Rolf Kaltenborn, son of H. V. Kaltenborn the commentator, discusses the founding of "subscription radio" as a solution to the discrimination problem.

Briefly, it will work like this—(and he says it will begin to work by next fall) a radio station sends out programs without advertising but it sends out also a whistling sound which effectively blocks it off from any radio not equipped with a device to eliminate the squeak. To listen to the kind of program you want, you rent the device from the station of your choice, at cost of 5 cents a day, or $18 yearly.

This offers an alternative to commercially sponsored programs and commercial programs would have to compete accordingly. "The greater the choice, the greater the freedom of the air."

"Subscription radio will make unnecessary the endless, elaborate and contradictory polls and surveys of the broadcasters," says Kaltenborn. "The extent to which a station pleases its audience will be measured . . . by the number of subscribers. The radio listener will for the first time have an effective voice in determining the kind of program to be broadcast . . . a greater variety of programs appealing to different segments of the public will be available for the first time."

Those who have organized the Pioneer Network of subscription stations are William Benton, until recently secretary of State; Robert Hutchins, chancellor of the University of Chicago; James Lawrence Fly, formerly chairman of the Federal Communications Commission and Beardsley Ruml of R. H. Macy & Co.

(Do you like the idea of subscribing for your radio entertainment as you would for a magazine?")

Youth Sentenced to Spend 3 Days In Detention Home

A 16-year-old Chester avenue youth must spend from 8 a. m. to 8 p. m. each of the next three Saturdays in the county detention home because he gave a 17-year-old youth a black eye.

The sentence was passed yesterday by Judge Stuart H. Cramer in county juvenile court.

The boy was charged with assault and battery following an altercation at Fourth and Main streets Sunday evening.

The case of a 16-year-old Hoover road girl, who was accused of failing to comply with a court order, was continued. The girl had been permitted to leave school to help at home, but she allegedly refused to work.

NEW MEMBERS INITIATED AT BPW EMBLEM DINNER

Plans Made to Hold 24th Anniversary Guest Party at Sky Club on March 17.

THE BUSINESS and Professional Women's club celebrated their annual emblem program with initiation of new members last evening at a 6:30 dinner served at the First Methodist church. Red and white valentine hearts in lace frames containing the evening's program were used as favors, and red and white lighted tapers graced the long U-shaped table.

The emblem ritual, with each candidate carrying a lighted torch, was used for the initiation which was in charge of Miss Thelma Bogan, Miss Grace Bonnell, Miss Marjorie High, and Miss Mabelle Koppes, who comprise the emblem committee.

The new members initiated were Miss Carrie Beal, Mrs. Mary Galbraith, Miss Kathryn Spreng, Miss Wilma Zeigler, Miss Lucille Gant, and Mrs. Pauline Huber. The emblem service was concluded by Miss Estella Arras singing "Golden Key," which was written by Carrie Jacobs Bond especially for the Business and Professional Women's Club, and by Mrs. W. V. Isham playing a group of piano selections.

Rev. John Genzel, pastor of St. Luke's Lutheran church, spoke to the group on Puerto Rico, stating that the first major problem of the island of Puerto Rico is overpopulation and poverty. He touched briefly on the political aspects and the possibility of the island becoming the 49th state. "For the first time since the Puerto Ricans were taken over by the United States fifty years ago, they will be allowed to vote this year to elect their own governor. From a military viewpoint, Puerto Rico is of tremendous importance to the United States as it is the protective outlying post of the Panama Canal, he said.

During the business session, Mrs. Charles E. Kerr announced that Miss Ilo Cooperrider had been chosen to serve as the club's delegate to the Mansfield Dental Clinic, replacing Miss Dorothy Landers who is now a director of the clinic.

On the hospitality committee for the evening were Mrs. Ethel Blaney, chairman, Mrs. Alice Haire, Mrs. Maude Vail, and Miss Anna Rauch.

There will be a meeting for members of the executive board on February 25 at the Public Library at 7 o'clock.

The next dinner meeting for the club will mark their 24th birthday and is to be held at the Sky Club on March 17. Guest night will be observed with Mrs. Gertrude Kaufman and Miss Celia Brumbach in charge of the program and arrangements.

Mrs. Taft Is Campaign Partner For the Senator

By DOROTHY WILLIAMS, UP Staff Correspondent

WASHINGTON—Martha Taft admits she is better at politics than at pies.

The plump and homey wife of Senator Robert A. Taft (R-O)—who looks as though she could blend a tasty pastry—plans to demonstrate her campaigning talents this week in St. Paul, Omaha, Council Bluffs and possibly Denver.

She will address women of these cities, while her husband is talking to their menfolk.

Mrs. Taft is now, as she was in 1940, the only candidate's wife who is actively stumping to get her husband into the White House. Even Mrs. Eleanor Roosevelt shunned out-and-out campaigning.

The Tafts are well known as a campaigning team in Ohio and to a lesser degree elsewhere. She specializes in telling how "Bob" feels about various issues. And that invariably is how she feels, too.

While he makes flat-voiced pronouncements, she attacks the New Deal for developing a "highboy" government "because it is one bureau on top of the other."

"The Torch of Liberty is like furnaces and husbands," she told a woman's group recently. "If you didn't do something about them, they will go out."

It's natural for Martha Bowers Taft to know a lot about government. Her grandfather was Thomas Wilson, one-time Chief Justice of Minnesota. Her father was Lloyd W. Bowers, who until his death in 1910 served as U. S. Solicitor General under her father-in-law, President William Howard Taft. She grew up in Chicago before moving to Washington.

She married Taft after a White House courtship. They first met while he was a student at Yale and she was attending fashionable Rosemary school in Greenwich, Conn., where she later taught Latin briefly.

For a long time Taft was just a name on one of her old school dance programs.

"We weren't particularly impressed with each other," she recalls.

But it was a different story by the time he proposed a few years later while they were dining at the old Dower House, then the favorite dine-and-dance spot of young Washington.

Now their mutual admiration is obvious. Once when asked for three reasons why her husband should be President, she promptly replied.

"Brains, character and experience."

Horoscope

For Friday, February 13.
By GENEVIEVE KEMBLE

While the astral indications make for a successful and well-planned schedule, with sound and secure foundations, at the same time there seems to be an undercurrent of the subtle, crafty and sinister as well, in which case it would be wise not to build too solidly on false hopes, mistaken values or the wily conduct of designing and tricky gestures from suspicious sources. Plod ahead on sound judgment, reasonable and sagacious effort, minus foolish fancies or dubious collaborators. Keep well organized.

Those whose birthday it is may hew a straight-and-narrow course by adhering to logic and reason, shrewd and well-thought out plans or policies, ignoring the fanciful suggestions of officious or doubtful persons, too eager to take part in sound and workable propositions. A keen and clever policy of keeping to the right and true might work for stable and enduring rewards with future stability and growth.

Mission Group

Thirteen members of the Women's Missionary society of the First Brethren church met at the home of Mrs. H R Beal, 319 Buckley avenue, Wednesday afternoon. Mrs. Norman Dinninger and Mrs. Louis Finfgeld received birthday gifts from the group. The associate hostesses, Mrs. John Stevenson and Mrs. Frederick Conrad, served a light lunch and the club adjourned until March 10 when it will meet with Mrs Adam Poth, Fifth avenue extended.

No More New Ones Likely Until Spring

Children Damage City's New Buses

Mansfield bus riders will get no more new equipment until spring, at the earliest. But local transportation officials are not worried, and are confident the 20 buses now in operation at the peak hours will be able to handle the 15,000-16,000 daily riders.

And, if damage to new buses when they do arrive is as great as damage to the six recently acquired, Mansfield Rapid Transit officials aren't too sure they want them anyway.

"It just seems impossible that as much damage could be done to these new buses as school children have already done to them," C. M. Ross, superintendent of the bus company, mentioned yesterday. It's just a case of thoughtless destruction by the school children who ride them." About 1,000 Mansfield boys and girls ride the buses daily.

$80,000 INVESTMENT

"The six new coaches cost us $80,000, which is a pretty sizable investment, and while we have more on order, we have been told we cannot have them until spring—and maybe not then," Ross continued.

Bad days such as the recent cold wave boost the load the buses must carry, especially at the morning and evening peak hours, but during the slack hours on such days fewer people ride because they don't care to get outdoors or go down town shopping.

Friday is becoming more and more of a big day to compete with the always busy Saturday, according to a survey by the local transportation group.

FRIDAY BARGAIN DAY

"Merchants are making Friday a banner day for bargains, and the public is quick to notice it," Ross went on, "but Saturday always will be a big day. We don't get the school children, but a lot of them do go to town and back with their parents, and adults have always used Saturday for trips to town."

"Wednesdays are, and probably always will be, our light week days. During the middle of the week our patrons stay at home, saving their trips to the movies for the week ends, although Sundays are light due to the lack of the workers going to their jobs.

"But, for regular days we'll average over 15,000 customers a day, counting all the children and the transfers. It's a little heavier during the winter months, when fewer walk."

GRANGE MEETS FRIDAY

MILLERSBURG—Holmes County Pomona Grange will meet at the Hardy grange hall at 8 p. m. Friday. Ladies are asked to design a spring hat which can be judged by the men. Each one is asked to bring a Valentine. Members are asked to bring pie for refreshments.

Flays Third Party Move

CLEVELAND—(UP)—Franklin D. Roosevelt jr., said Wednesday that Henry A. Wallace is being "misused, misled and misguided" into a "dangerous adventure" into a third party.

Here to speak before the Cleveland chapter of the Americans for Democratic Action, the late President's son said he was "very definitely opposed to a third party" and added that it will defeat "the very objective for which Wallace says he has organized it—to elect more liberal and progressive congressmen and senators."

Roosevelt said that "even Wallace himself doesn't believe he has chance of being elected president."

Hines Quits Panama Job

WASHINGTON — (IP) — The White House announced yesterday that President Truman has accepted the resignation of Brig. Gen. Frank T. Hines as ambassador to Panama, efective March 1.

Hines, who has been ambassador since 1945, submitted his resignation on Nov. 28.

The White House did not release Hines' letter of resignation. But Mr. Truman, in his acceptance, mentioned Hines' desire to return to "private life" and praised him for his service.

Hines' intention to resign was first reported last Dec. 26—shortly after the Panamerican national assembly rejected an agreement to lease defense bases outside the 10-mile-wide canal zone to the United States.

The White House did not indicate who will succeed Hines.

Claims of Wallace's Complete Honesty Carried a Bit Too Far

THOSE ADHERENTS of Henry Wallace who boast that, whatever his faults, their man is honest, have made a serious political mistake. This mistake will redound to the advantage of historical truth. It will stimulate persons who go exploring in the wastes and caverns of myth, fallacy and fraud in search of truth.

No man is completely honest and most of us are content to have it said that we may be relied on in all the occasions in which character, integrity and self-respect are the foundation of confidence.

Had Wallace's friends been content to accept such a reputation for this soapy fellow of theirs and let him go drooling on his way, flapping his Hitlerian bang and running the back of his hand across his mouth, they would have had an advantage of decent men.

★

But they have talked too much. They have summoned the, as it were, devil's advocates to challenge their proposition.

Wallace has refused to answer whether he wrote all or any of the imbecilic letters to the late Nicholas Roerich, the Russian guru, or Mahatma, which the entire New Deal cabal concealed from the voters in 1940 when Henry was Roosevelt's personal nominee for vice president.

The man who wrote those letters was, by American popular standards, as dizzy as a dervish. These letters are revolting in their idiotic, juvenile prattle of esoteric jargon. One authority on Oriental philosophies states that the writer certainly did not understand any of these philosophies but obviously had dabbled in one or more of them and had picked up some of the terms, as a cheap Englishman, hanging around a Piccadilly bar, essays to acquire the American twang and slang and then makes an ass of himself by exclaiming, "Well, I guess I sure am some Yank!"

As to the authenticity of these letters I have the professional opinion of Clark Sellers, of Los Angeles, acknowledged by others in the profession of examining doubtful documents to be the best of them all, that the man who wrote two certain letters to me was the same who wrote the idiotic guru letters. Henry Wallace is the man who wrote the letters to me.

Several times during the summer of 1947 I tried to induce Wallace to examine the photographs of these letters. He ducked like a deadbeat and I haven't caught up with him yet, although of course I could confront him by setting myself that task and ignoring all others.

★

He knew what I wanted because I left word at his office and he knew, further, of course, that it was my intention to pluck that loose thread of his union suit and keep pulling and winding until I stripped him and revealed him as a montebank, and not a hero but a slacker, and not an honest man, even for normal daily purposes.

Now, regardless of whether Wallace wrote these letters, and I do not allege that he did, the fact does remain that he was a student of Roerich's teachings and a frequenter of Roerich's lamasery, or josshouse.

Georgia Citizens Stand on Rights When Ku Klux Klan Scares Sheriff

FROM THE ASSOCIATED PRESS of Feb. 4, Swainsboro, Ga.: "As the cross burned, hooded Klansmen cried out: 'Where's Drew Pearson? Where's Walter Winchell?' Both nationally syndicated columnists have been exposing information on the Klan."

★

It is not news that the white-hooded white trash of Lakeview, Georgia, have threatened to tar and feather a high school principal and a high school coach . . . It is still not news that with typical chivalry they waited for a night when Coach Bowland was absent and only his pregnant wife was home.

But it is big news when a Georgia sheriff tells a newspaper he is too afraid of the Ku Klux Klan to enforce the law . . . The governor of Georgia is now on public notice that a Georgia sheriff is too much of a coward to perform his duties . . . Further—the governor of Georgia is on notice that if the threatened attempt is made to tar and feather these men, they will shoot to kill . . . They are within their rights . . . You don't have to be a sheriff to stop a felony. . . . You just have to be a man.

This case is no longer in the front yard of high school Coach Bowland . . . It is on the steps of the executive mansion at Atlanta and the White House at Washington, D. C. . . . Attorney General Clark: Is United States citizen Bowland getting the equal protection of the laws guaranteed by Amendment 14, Section 1 of the Constitution? . . . Does raising a family and earning a living require a license by the Ku Klux Klan, Mr. Clark? . . . And what about Title 18, Section 51 of the United States Criminal Code? . . . Under that law to threaten or intimidate any American citizen in his Constitutional rights is a federal crime, and you, Mr. Clark, are sworn to prosecute . . . Why did the Democratic administration go through the contemptible hypocricy of asking for a Civil Rights Bill last week by special presidential message when it doesn't dare enforce the laws already there?

Mrs. Bowland standing for her rights while a sheriff cowers again proves there is more integrity in the average American's front yard than in ten square blocks of Capitol Hill . . . Mrs. Bowland may have thought she was stamping out a burning cross but she was really raising the American flag from the Georgia mud where a white livered sheriff had dropped it from his shaking yellow hands.

Things Most of Us Never Knew 'Til Now: From the N. Y. Herald Tribune book review by Gerald W. Johnson on Donald Davidson's "The Tennessee, Vol. II": "Here, also, is a sane account, as exact as the scanty records will permit, of the original Ku Klux Klan . . . Its Grand Chaplain was said to be a Catholic Priest and its Grand Treasurer a Jewish merchant."

Link Thefts To Stranded Motorist

Patrol Hunts Driver Who Aided Him

A motorist who gave a stranded driver a lift into town may have the clue which will help solve a wave of car thefts reported yesterday in Mansfield, the state highway patrol said today.

Four cars were stolen from the parking lots of industries in the city. Three were recovered. The fourth, a late model Chevrolet belonging to Alan Tappin, 574 Woodland road, has not been found. It was stolen from the Tappan Stove company parking lot sometime before 6:15 p. m. yesterday.

The first stolen car was found by Safety-Serice Director E. L. Morgan in a ditch on Route 13 where it had been abandoned. State Patrol officers said the driver probably hitch-hiked back to Mansfield. The motorist who gave the man a lift could provide a description which might lead to the man's arrest.

Theft of the car had been reported to police shortly after noon yesterday by Richard G. Pitman, Averill avenue. He said he had parked it in the Ohio Brass company parking lot in the morning. At noon it was gone. Pitman said the keys were in the car.

A second car belonging to Glenn S. Oswalt, Mansfield, R. D. 1, and parked next to Pitman's car, also was reported stolen. It also had the keys in it. Oswalt's car was recovered at 12:29 a. m. today at Vine street, east of Newman street.

A third car, the property of Loucies Feagin, 798 North Main street, was reported taken from the Mansfield Tire and Rubber company lot between 6:30 a. m. and 3 p. m. yesterday. It was recovered in front of the Orange street cafe at 2:03 a. m. today.

The state patrol expressed belief one man may have been responsible for all the thefts. The thief apparently had difficulty managing the overdrive of Pitman's car, which turned around several times when it passed a truck and skidded into a snowdrift.

The driver, after backing out, went a few miles further north and ran into the ditch.

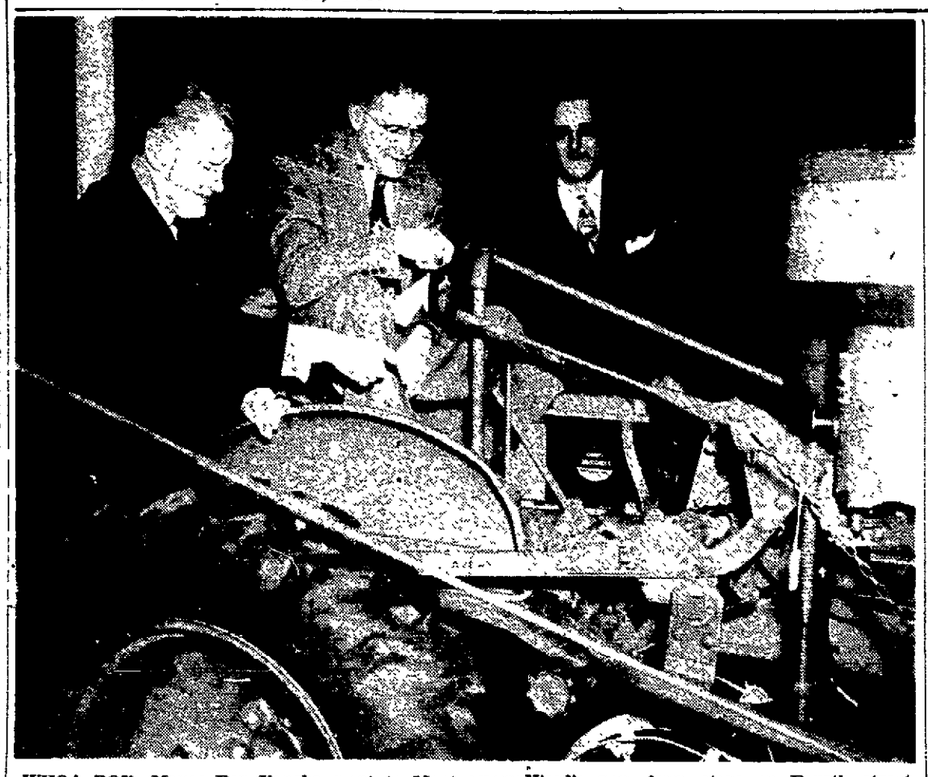
Mrs. Corbett Dies at 87

Mrs. Mary Corbett, 87, died at her home, 179 East Third street, Wednesday night after a brief illness.

Born in Mansfield, Feb. 22, 1861, Mrs. Corbett had lived here most of her life. She resided in Crestline for 19 years. She was a member of St. Peter's Catholic church and St. Rita's Sodality.

Surviving are one son, Leo, at home; two brothers, William Michael of Mansfield and Frank Michael of Toledo; several nieces and nephews. A brother, Andrew, died last Saturday.

Friends may call at the family home after 7 p. m. today. Funeral arrangements, in charge of the Geiger funeral home, are incomplete.



WHOA BOY—Mayor Roy Vaughn went to Montgomery-Ward's new farm store on Fourth street today to cut the ribbon for the formal opening at 9:30 a. m. but like any "boy" found the many farm machines too interesting to leave without close inspection. Accordingly, he mounted a tractor and played with the controls while E. F. Curley (left), Ward's regional operating manager, and J. G. Blahnik, Mansfield store manager (right), explained them.

Court Penalizes Traffic Violators

Fines totalling $90 were assessed yesterday against 10 traffic violators in municipal court by Judge H. H. Schettler.

Five persons were fined $10 and costs after pleading guilty to charges of speeding. They were Henry Weirick, 156 Ohio street; Walter C. Adams, Marengo, O.; John C. McNaul, Lexington; Mervin Scott, Mansfield, R. D. 5; and May M. Markel, Pavonia.

Henry Y. Stone, 207 Miller street, was fined $5 and costs for operating a vehicle on which the load was insecurely fastened and Wesley R. Troescher, Cuyahoga Falls, was fined $10 and costs for improperly passing a motor vehicle.

For driving a car with insufficient brakes, Wally R. Knipp, Mansfield, R. D. 1, was fined $5 and costs; Charles E. Cashell, 354 Taylor road, was fined $10 and costs for operating a motor vehicle on more than one-half of the highway.

Gerald W. Miller, Marion, was fined $10 and costs after pleading guilty to unsafe operation of a motor vehicle.

Club Hears Attorney

Many of the world's problems would be solved if people would apply properly the vast amount of knowledge that they amassed since the beginning of time, John Kramer, Mansfield attorney, told the Optimist club yesterday.

He spoke at the weekly meeting of the club at the Mansfield-Leland hotel.

"Knowledge is worthless unless it is used," Kramer emphasized.

Kramer's talk was the second part of an address, the first installment of which was given last week, entitled "We, the People."

The first speech outlined the workings of the United Nations in the diplomatic, social and economic fields.

At yesterday's meeting, Harvey W. Anderson, manager of Richland Recreation, was welcomed into the club as a new member.

Erie Trains to Use Phone-Radio System

All mai line trains on the Erie railroad through Mansfield will be equipped with new high-frequency radio-telephone sets, it was announced today. Passenger and freight trains will have the new equipment, according to an announcement by R. E. Woodruff, Erie president.

Installation of the equipment will give the engineer in the cab and the conductor in the caboose instant communication. Both engineer and conductor also will be able to talk with wayside offices, train dispatchers, and crew members of other radio-equipped trains.

Mansfield has six passenger trains daily on the main line, as well as freights operating in both directions, making a total of around 30 trains daily.

The announcement that trains would be equipped with the radio system, after 18 months of development by Erie officials and engineers, also disclosed that walkie-talkie radio sets for head-end and rear-end communications will be used on both freight and passenger trains.

Added safety and increased operating efficiency are expected to result from the new equipment on the 300 miles of main-line from Marion, O., to Salamanca, N. Y. Complete installation and full operation is expected by May 1.

The Kent, Mahoning and Meadville divisions will be the first served by the radio-telephones.

Two Parties Warming Up

The Richland county political picture showed more activity today with the Republicans staging their annual Lincoln day dinner and Democrats preparing to receive Ray T. Miller, candidate for the party nomination for governor.

About 200 persons are expected at the Lincoln day dinner today at 6:30 p. m. at the First Methodist church. Principal speaker will be Robert R. Bangham, assistant director of the Ohio department of public welfare.

Candidates seeking the GOP nominations at the May primaries for county, district and state offices will be introduced. Music will be provided by Smart's accordion trio. Guests will be welcomed by Mayor Roy W. Vaughn. Ralph M. Hardy, chairman of the county Republican executive committee, will preside.

Miller will be at the Mansfield-Leland hotel from 2 to 5 p. m. Saturday to meet Democrats of Richland county.

Nurse Employed At Sanatorium

Mrs. Esther Lighthill, 231 Orange street, has been employed as a nurse at the county tuberculosis sanatorium on a temporary basis to replace a nurse who underwent an operation.

The county commissioners also authorized temporary re-employment of Mrs. Pearl Edwards, Mansfield, R. D. 5, as a practical nurse at the sanatorium.

Felts Heads Risk Firm

Charles C. Felts, 356 North Townview circle, was elected president of the Druggists Mutual Insurance company at the annual meeting yesterday in the company offices, 680 Park avenue west.

A former secretary of the firm, Felts was chosen for the office left vacant by the death of J. W. Dysle, Marietta.

Leonard H. Jones, former executive vice-president, was named secretary and Richard E. Felts was elected to the board of directors. Jones resides at 646 Dickson parkway and Richard Felts at 28 Rowland avenue.

Other officers elected were A. L. Flandermeyer of Cleveland, vice-president; Graham B. Ackerman of Columbus, treasurer; William H. Fischer of Louisville, chairman of executive committee, and R. E. Felts, assistant secretary-treasurer.

TB Seal Funds Due By Feb. 16

The Richland County Tuberculosis association will accept money for 1947 Christmas seals until Feb. 16, Mrs. Margaret Adams, executive secretary, said today.

Although the campaign officially ended Christmas day, the final report is not due until the 16th.

Mrs. Adams said that so far $13,890 has been collected, $1,390 above the quota. A total of 19,890 letters were sent out in the 1947 appeal, and 9,979 were returned with contributions.

Lincoln's birthday anniversary has a very special significance for Frank A. Voegele. For today is his birthday, too, and, like the "rail splitter" who became president, Voegele believes in work as a panacea for many ills. To prove it, he's been on the job at the Voegele Brothers company for more than 50 years and today was no exception. If his birthday had been yesterday, Voegele probably would have wound up the day by attending Ash Wednesday services at St. Matthew's Lutheran church where he has been an active worker for many years.

The News-Journal also extends birthday congratulations to Dr. Charles L. Shafer, Dr. J. M. Garber, Harvey Bailey, Dr. Charles Brown and Miss Josephine Chavez, popular waitress at the Parkway restaurant.

Banks and state offices in Mansfield were closed Thursday, observing the birthday of Abraham Lincoln. City and county offices were open for business as usual.

Most of the city's schools had Lincoln day programs, but were not closed for classes.

Grain and Wall street markets were closed today, but the livestock markets were open.

Ribbon Cut By Vaughn

Tractor Display Featured

Hundreds of persons from a widespread area around Mansfield thronged the new Montgomery Ward farm store for its official opening at 9:30 a. m., today.

The store displayed one of the largest exhibits of farm equipment in northcentral Ohio.

Mayor Roy W. Vaughn made the opening official when he cut the ribbon across the big front door of the building at 9:30. Prominent Mansfield businessmen and company officials were on hand for the opening ceremony.

Among the displays on the 10,000 square feet of space in the new store were 10 new tractors, probably the largest display of farm tractors in Mansfield since before the war, according to Fred Kohler, manager of the new store.

COMES HOME

Kohler's appointment as manager is the story of a Richland county farm boy who "made good" and returned to his home town to fulfill a long-time dream. He started with Wards 16 years ago when its store was on West Fourth street across from the present farm equipment site. He has been associated with company stores in Marion, Lima, Bellefontaine and Fremont.

Displays include everything needed on a farm from poultry supplies to riding equipment. In the rear of the store is a new type brooder, and there are aluminum, light weight chick feeders and a chicken picker that can clean two chickens a minute if an expert is at the controls, Kohler said.

The complete riding equipment department is at the front of the store. It contains everything from bits and spurs to handsome saddles in the best of leathers.

Prominently displayed on the rear floor space is an aluminum body farm wagon, one of the first of its kind to be displayed here. A power chain saw fills one of the big front windows.

The basement of the store will have 10,000 feet for service and repair of all types of farm apparatus.

Among the company officials present at today's opening were Joseph G. Blahnik, general manager of the Mansfield stores; E. C. Curley, Charles Hagmaier and Luther Putnam of the Chicago office, and officials from company stores throughout Ohio.

18 Bankers At Meeting

At least 18 Mansfield bank officers and employes were in Columbus today to attend the Ohio State Bankers' association conference. Mansfield banks were closed today for Lincoln's birthday.

Attending from the Richland Trust company were Charles N. Sutton, executive vice-president, who assisted in leading discussion panels at the convention.

Paul Eliot, president of the Farmers Savings and Trust company, left last night to be on hand for morning sessions. Others who went today from the Farmers bank were H. R. Fielder, Dean A. Eckert, Howard G. Miller, H. C. Kyner, John S. Brandt, Walter M. Connell, Robert Gumz, Robert Kaser, Donald E. Fatkin and E. C. Geiger.

Six members of the staff of the Mansfield Savings Trust National bank were at the conference. They were H. G. Brunner, Avery C. Hand, jr., S. A. Wentz, B. M. Banks, G. B. Garrison and P. J. Mayer. Brunner is treasurer of the state organization.

Work Started On Lighting

Work on the installation of new case lighting equipment in the Mansfield post office was started yesterday, Curtis L. Ford, acting postmaster, said.

The work will be done by the Raby Electric company, 423 Bowman street. Raby was granted the contract by the Post Office department.

Initial measuring for the lighting was done yesterday. The completed job will include fixture and lighting assemblies which will be installed over new sorting cases recently added to post office equipment.

Sparks Start Fire

At 6 p. m. yesterday, firemen from Central and No. 3 stations went to the Art Rattan company where they extinguished a fire started by sparks from a welding torch. Firemen said the sparks had fallen through a crack in the floor and ignited the ceiling of the floor below. Slight damage was reported.

Vet Bonus Training Session Scheduled For Next Week

The eight-county training program in soldier bonus distribution will be held in Ashland next Thursday, with one of the leaders from the state office in Columbus to appear.

The eight-county program is for the purpose of familiarizing agencies with the forms which servicemen will fill out in order to obtain compensation for time spent in armed forces.

Sample forms are expected here soon by Harry A. Vandervort, service officer for the Richland County Soldier Relief commission, who will attend the Ashland meeting and who will have charge of the meeting here for Richland county agencies Feb. 20.

The average payment to Ohio servicemen—there are 9,000 in Richland county—is expected to be about $300 each, according to Vandervort. The bill provides compensation for all veterans who resided in Ohio at least one year prior to entering service.

At the eight-county meeting in Ashland, agents from Ashland, Richland, Wayne, Medina, Crawford, Erie, Huron and Lorain counties will meet.

The program will provide information for veterans and point out responsibilities in the bonus payment program. Checks are expected to be sent out this summer, with applications available March 1.

Senior High Battles Massillon Tomorrow

BULLETIN

BARBERTON — (AP) — The athletic board of Barberton high school has voted against entering a proposed football league of seven Ohio high schools.

Harry Strobel, Barberton head football coach, said the school would not be represented next Sunday when officials hold a second meeting at Canton.

OHIO SPORTS SCRIBES are beginning to compare the proposed "Big Seven" athletic league to the Western conference or Big Nine. . . . And the Buckeye conference is only in the talking stage. . . . However, it became more of a certainty yesterday when Harold W. Emswiler, Ohio high school athletic commissioner, put on his stamp of approval. . . . "If it's just a matter of forming such a league and the schools concerned feel they can spare the time and money, I don't see any objection to it," Emswiler said. . . . All seven of the schools will, of

course, come from the northeastern part of the state, where the country's best scholastic football is played. . . . The group is tentatively called "Northern Ohio high school conference." . . . Plans call for Ducky Schroeder, Springfield athletic director, to attend next Sunday's organization meeting in Canton. . . . Schroeder has approached Emswiler informally about forming a southern Ohio counterpart to the Big Seven. . . . The winners then could play what virtually could be called a state championship game each season. . . . From here it would seem much more appropriate if the northern group winner could meet the victor of the established Greater Ohio league. . . . The GOL includes Springfield, Portsmouth, Hamilton and Middletown among others. . . . Not all of the athletic officials have received the go ahead sign from their school heads. . . . In addition to Mansfield, Canton McKinley, Barberton, Massillon Steubenville, Alliance and Warren Harding are the interested teams.

Fox Hunters Plan Display

The Richland County Fox Hunters will sponsor an outdoor life display in the Martin Hardware front window Friday through Sunday, explaining many of the ideas of the organization and its problems.

The display will show mounted game of all types, such as fox, owls, hawks, crows, pheasants, grouse, partridge, rabbits, etc.

One of the features will be the showing of 39 pelts of wild game in the Ohio area, including white raccoon, mink, muskrats, otter, badger, and civet cat.

The organization will hold a special meeting tonight at the Richland county courthouse, with plans for the display to be discussed after the session. Future fox hunts will be planned at the meeting.

Sportsmen having mounted game, and who are willing to loan them to the County Fox Hunters association are asked to call Harold Snyder at 1963-1 or Carl Schafer at 4397-4. Arrangements will be made to pick up the collections

Jackie to Sign?

NEW YORK — (INS) — Branch Rickey, baseball's "great emancipator," is expected to announce among other things today—Lincoln's birthday—that he has signed Jackie Robinson, the major leagues' first Negro regular, to a 1948 contract.

Rams Seek Win No. 15 At Bucyrus

Tomorrow may be Friday the 13th but the Mansfield Senior high men of basketball don't plan on falling heir to the fabled jinx when Massillon's mighty Tigers invade the Tyger lair.

The Massillon club packs enough punch and height to spill the Mansfield lads all over the Senior high planks, but the Bengals are kind of mean when it comes to preserving their long home court winning streak. The streak has reached nine straight games.

Massillon's veteran team has six lads over six feet among the first seven and the other fellow checks in at 5-11. Most of the squad also packs plenty of weight.

It should be quite a sight to see the Massillon huskies battling Burt Lindsay and Norb Shibinski, Senior high's big boys, under the basket.

Bud Houghton's Washington high club has won 10 of 13 games. The Senior high lads boast 13 victories in 17 games.

FACES TOUGH OBSTACLE

Madison will face a tough obstacle in its battle to retain perfect rating status tomorrow at Bucyrus. The Rams have won 15 straight.

Bucyrus has battled to second place in the Northern Ohio league, and has 11 wins in 14 games for the season. The Redmen have their best club in six years and would like nothing better than upsetting the Ram cart.

★

Richland county league hostilities will end with four games tomorrow. League-leading Lexington entertains Lucas in the payoff contest. The Minutemen need a win over the rugged Lucas crew to clinch the loop diadem.

The other games find Bellville at Butler, Shiloh at Union, and Plymouth at Ontario. Butler, defending champion, is only a game behind Lexington. The Bulldogs have won 10 of 13 league games, Lexington, 11 of 13.

★

Over in the Northern Ohio circuit, three league games are on tap. Bellville, with the championship, clinched, plays at Crestline in the feature. Shelby plays at Galion and Willard goes to Norwalk in the other official games Bellevue has won six straight league tests.

★

Elsewhere in the district, Edison plays at Iberia, Johnsville at Cardington, Marengo at Sparta, St. Mary at Mt. Gilead, Millersburg at Loudonville.

Ohio Public Service, Sports Win In YMCA Cage League

Ohio Public Service and Ohio Sports staged offensive demonstrations in the YMCA league last night, as the OPS team crushed Dominion Electric, 53-18 and the Sports racked up a 52-32 triumph over Tire 'B' cagers. Westinghouse outscored Ideal Electric in the third game 34-22

Radio of the Ohio Sports team was the high scorer for the night, with six field goals and four free tosses for 16 points, but the O.P.S. scoring was well divided. Burton, Robinson, and Hummel each netted 11 points as subs saw service during a part of the easy decision

A big third quarter sewed the game up for Westinghouse, the winners getting 13 points while holding the losers to five.

Wisswander of the Tire 'B' team was deadly at the free throw line, cashing in on seven gift shots.

Martin Hardware Moves Closer to City 'A' Lead

Martin Hardware moved to within a half-game of first place in the American division of the City A basketball league by winning a somewhat hollow 47-to-33 decision over American Veterans Committee.

In winning its seventh victory in ten games, the veteran Hardware quintet quickly shot into a 14-2 lead at the quarter. However, AVC outscored the winners in the next two periods, 10 to 8 and 12 to 9.

Ed Chatlain, New London cage coach, and Tom Scott led the Martin scoring with 16 and 14 points respectively.

LEGION WINS UPSET

Rounding out the program, American Legion Post 72 upset Barnes Manufacturing, 35 to 34 and Rogers Jewelry romped over Ven-Mar Pharmacy, 49 to 22, as Dick Casad scorched the nets for 21 markers.

The Legionnaires had to rally to defeat the Barnes team which led at the half, 20 to 16 and at the three-quarter mark, 28 to 20. Going into the final moments, Barnes was in the van, 34 to 30. Then Ralph Majors hit a free throw, Bunk Reynolds cashed in with a fielder and Cal Collins connected with the winning basket.

Reynolds was the touch point man with 14.

Rogers led all of the way in beating Ven-Mar. Score by quarters was, 11 to 5, 22 to 12, and 37 to 18.

Lexington's Ford Leads Richland County Scoring

For the second straight season, Rollin Ford, Lexington's fine forward, has clinched Richland county individual scoring laurels.

Although missing the last Lexington game, Ford is perched on top the county race with 240 points, an average of 20 per game. Union's Leroy Dill would have to score 33 points tomorrow against Shiloh while Lucas was holding Ford scoreless to change the listing.

Dill has 208 points and the most field goals—91. Ford is tied with Sam Roberts for second place in the field goal listing with 88 apiece and leads the free throw department with 64.

Roberts and Myron Collier, Butler's scoring twins, are third and fourth in the total score bracket with 204 and 195 respectively. Desmond Donnenwirth, Plymouth's ineligible forward, holds fifth with 168.

Bob Heifner, Shiloh, rates 15th in the over-all scoring column but is second in fouls with 46.

Simpson Fades Late In Game, Loses, 40-25

The Savannah high basketball team, held almost on even terms for three quarters by John Simpson's ninth graders, ran wild the fourth quarter for a 40-25 decision over the local crew on the Simpson floor last night.

The Simpson team, lacking height to cope with the rangy visitors, outscored Savannah in the second period, and trailed at the half, 16-15. Savannah still was puzzled by the defense in the third period, but tacked two points to the lead. Then the dike broke in the fourth period.

Popping in points at random on the weary Simpson machine, Savannah scored 18 points in the final period to make it a runaway.

GEORGE TAKES TURN

George Shoulders took his turn at being high scorer for the local preps, getting 12 points. Scoring honors have been circulating among the team all season as the team has played for victories and not for individual glory. Last night the team played fine ball, but just lacked the finishing punch to cope with Savannah.

Lindsay and Emmons paced the winners with 14 and 13 points.

Simpson will play at Mt. Vernon next Wednesday.

Saturday's Payday For Pin Champions

By GAYLE HAYES

The official prize list of the city bowling tournament, splitting $1,041 among the city's pin spillers, will be announced tomorrow and checks will be ready Saturday, E. D. Funston, city secretary, has announced.

Team scores of 2,914 or better, doubles of 1,178 or higher, and singles series above 609 will share in the spoils. Five all-events scores, down to 1,882, will receive checks.

★

Carl Engleborn was the high pin-popper in the city last night, pouring in a 646 series in the City A league on counts of 239, 204 and 203, but as has been the case with the hotshots lately, the big scores failed to help his team much. In fact the Frankie Mitsch's Corner Store team hit 2,841 sticks—high in the league—but still couldn't win the entire set. After losing the first game by four pins, the Corner Store team came back with 945 and 957 to win the next two. Waldman Meats tumbled 938 and their five-pin handicap took care of the first game.

Orlie Grable speared 201 and 233 after a feeble 155 opener to help Englehorn, while Cliff Forsythe paced the Meatmen with 582 and Skeey Wolf was up among them with 576. Forsythe hit 238 the middle game, with Fred Willis coming through with 214 the third try.

Jack Hanrahan and Lloyd Pugh were off to slow starts for the Eagles, but found the range from then on and Pugh spilled 185, 210 and 203 for a 598 series, while Hanrahan opened with 157, but hit his stride for 215 and 213 and a 585 total. At that the Eagles lost the third game—by one pin—to Safety Cab. The Cabbies got most of their pins the third game, with a 982 finish as Hammy Johns led the attack with 568 pins, three more than Carl Heilman could blast.

Bob Lynch of Bissman Birdie Brand slipped a little the third game, but still had a creditable 191 count to get over the 600 mark. He started with 205 and came back with 206 before falling slightly under par the third game. But the Birdie boys lost the odd one to Jerry's "36" Bar with Hal LeMunyon the pacesetter for the Barmen. LeMunyon hit 224 and 191 before slumping off to 155. Art Hilborn of the Birdie Brands opened just as bad, but after 155 and 174 he climbed to 234 and a 563 total.

Buck Forman and Fritz Vogel each had a sinking spell in the middle to ruin their nights, Forman scoring 208, 177 and another 208, while Vogel had 190, 165 and 223. Joe Harrold led Ideal Billiards with 580 and a 210 as best single game, while Jon Klish started fast for Drive-In-Ettes with 202 and 224 but fell apart at the seams for a 141 third game and a 574 total.

★

Mary Garver paced the Richland Ladies league on the Richland planks with a 171, 171, 165 for 507 pins and helped Preis Store sweep over City Coal and her team to high mark of the night—2,145 pins.

Mary Rickel dropped 480 with a 192 third game while Garnet Karl led the losers with 132, 122, 167 for 421. Riba Siler dropped 473 and Vera Messmore 461 for Ashland Truck.

★

Denny Berry was high man in the Victory league on the strength of a 235 middle game. Berry hit 147, then his 235 and finished with 193 for 575 pins. The Whitney Oils had high team total with 2,417, threee more than Home Interiors, but the Interior crew rammed in an 868 middle game for high single effort.

★

Fred Schnittke tumbled 178, 212 and 175 for 565 to pace the Westinghouse 'A' loop, nine more than D. Morley totaled on 172, 196 and 188. Shasky led the Westinghouse 'B' circuit with 538, while Bottorf had 502, Warren 511, and Deweese 504.

★

One of the best series of the night was scored in the Westinghouse 'C' league, with Faulk turning in a 229 game to finish with after a 173, 168 start—getting 570 for the evening, and leading his team to three victories. A. Summers had 536 after a 211, 190 start. G. Chronister lacked a stick of reaching 400 in the Westinghouse Girls league, with 142, 113 and 144.

Indians Sign Hank Edwards

CLEVELAND—(AP)—The Cleveland Indians today announced the signing of Outfielder Hank Edwards of Norwalk, O., 31st player to enter the 1948 wigwam.

Edwards, sidelined for several weeks last year with a spring training shoulder injury, said his right arm "feels fine" as he started gym workouts here in preparation for this season.

Hank hit .15 homers and slumped to .260 in batting last year, after clubbing .301 in 1946 but was the Tribe's leading fielder with a .990 average.

Wesleyan Increases League Lead

COLUMBUS—(AP)—Ohio Wesleyan streached its Ohio college conference basketball league lead last night, but not without considerable trouble from much-beaten Denison.

The final score, 56-45, failed to indicate the bitter fight Denison's Big Red put up before going down to its 10th loss in 12 games.

Denison, piaying before a home crowd at Granville, jumped in front early and stayed there for the first half which ended, 24-23.

The Big Red kept that one-point margin through the first three minutes of the second half. Then Wesleyan's Battling Bishops found the range and roared to a nine-point lead. But Denison wouldn't quit, pulling to 45-42 with four minutes left.

CLINCHES GAME

Wesleyan's center, Jack Thompson, clinched the game at that point with two quick rebounds and an over-the-head shot from the corner. Wesleyan coasted home.

It was the Bishops' seventh win against one loss in conference play and widened their edge over second-place Wooster (8-2).

Elsewhere last night, Guard Don Canfield sank a free throw in the last second as Defiance upset Anderson, Ind., 64-63; Youngstown staved off a furious Washington & Jefferson rally, 59-57; Eppa Rixey connected for 31 points as Kenyon trimmed once-mighty University of Chicago, 63-57; St. Vincents of Pennsylvania routed Steubenville, 70-54, and Ohio university's Chillicothe branch dumped Wilberforce Church, 51-44.

Defiance came from behind in the closing minutes to take a 63-60 lead on Anderson. But the Hoosiers' great center, Johnny Wilson tied it up with a rebound shot and free throw. Then Canfield sank his climactic point. Wilson, with 21 points, and George Mingle, with 20, paced Anderson. Merle Rosendale hit 19 for Defiance.

Riley Still Favored

PALM BEACH, Fla. —(AP) Polly Riley of Fort Worth, Tex., was still the favorite for the women's golf championship of Palm Beach today as play entered the second round. Miss Riley, medalist with a 74, rallied to take the last two holes of her match with Evelyn Odom of Miami, yesterday and finish one up.

Five Big Obstacles Stand In Middies' Tourney Trail

By JAMES DAILY

COLUMBUS — (AP) — Middletown, touted by many as the toughest team in Ohio high school basketball after winning three out of four class "A" championships, today could count five very large obstacles looming in its path to a fourth title.

They were, and not necessarily in the order of their danger: Findlay, Newark, Canton Township, Hamilton Catholic, and Hamilton.

Hamilton Catholic, winner of 16 this season against only one loss, will be out to get the Middies in the district semi-finals. The Rams, who dropped a 30-29 heartbreaker to the Middies in the Dayton semi-finals last year, have eight of the same boys ready to try again in the coming district tourney.

Newark, perennial powers of the Delaware district, and Hamilton Public, both were nosed out by Middletown by two points this season and think they might be able to whip the champs. Hamilton will get another try Feb. 27 before the tourney starts.

Findlay, semi-finalist at Columbus last year, sports a 16-0 record at the present time and is considered the Middies main threat. And Canton Township has a powerful group of veterans who dominate the northeastern section and have had only one loss chalked up against them—to Canton Central Catholic—later avenged in no uncertain terms.

Middletown has four games remaining on its schedule before starting the tournament steamroller — Springfield, Cincinnati Hughes, Xenia Central, and Hamilton. Springfield, a traditional foe, could catch the Middies offguard Friday night.

East Liverpool, runner-up to Middletown for the state title, will have a chance this weekend to prove that the winning of its last seven games was no fluke. The Potters, who will play strong Canton McKinley Saturday and Warren Friday, lost six games earlier in the season.

Ashland, loser only to Mansfield's Tygers, will vie for top billing with the opening of the Ashland county class "B" tournament when it plays Marion Harding Friday. Saturday the Taylor Tots will travel to Culver, Ind., to take on the military academy there.

Mansfield Madison tries for its 15th straight at Bucyrus.

Build Depot, Firms Told

COLUMBUS—(U.P.)—The state public utilities commission has ordered the Akron Union Passenger Depot company, the Pennsylvania Railroad company, and the Baltimore and Ohio railroad company to build an "adequate depot" in Akron.

The commission gave the companies until March 5 to show cause why they should not be ordered to proceed with the construction of the depot.

The commission acted on its own motion in the case.

Former Crestliner Leaves $27,500 Estate to His Wife

The estate of Luther S. Wilson, estimated at $27,500, was left to his wife, Mrs. Katherine W. Wilson, by terms of his will, admitted to probate yesterday.

Mr. Wilson, who died Feb. 6 at the age of 64, formerly was a railway postal clerk at Crestline.

The will estimated his personal property at $17,500 and real property at $10,500; Mrs. Wilson was named executrix.

Oliver Shively was appointed executor of the estate of Flora Fleming Hoover, late of Mansfield. Her will provides that he $5,000 estate be divided among Myrtle Soloday, Mansfield; Eva Leppo, Dearbom, Mich.; Loveilla Brown, Berea, and Estella Shively, Nina Steintz and Ruth Green, whose addresses were not given.

Union Demands Pay Increases

LONDON—(U.P.)—The confederation of shipbuilding and engineering unions dealt the government's wage ceiling policy its heaviest blow Wednesday with a demand for pay increases at once for its 2,750,000 members.

The general council of the confederations announced the decision in Newcastle only three hours before leaders of the trades union congress were to call on Prime Minister Clement Attlee to seek a clarification of the wage policy.

Making $200,000 No Novelty, Says 'Speculator By Trade'

CHICAGO—(UP)—E. T. Maynard, a "speculator by trade," said today that making "over $200,000" on a falling grain market was no novelty for him

He has done it before.

Maynard, who deplored all the attention he was getting, from government sources, said he has at other times in his 30 years as a grain trader made or lost that much money. This gain, he said, just happened to come at a time when trading was being "passed around as a political football."

"It was obvious that the market was started down," he said He denied any "inside information" contributed to his gain. He was only putting to work the knowledge he had gained in his experience, he said

The figure of around $200,000 was about right, he said. Any higher figures, he added, were something someone had "guessed" He declined to say how much he had put up to make his profit

Maynard said that making a profit on the market all was a combination of being lucky and paying close attention to all factors.

During the Revolutionary War, Americans drank tea made from brewing leaves of the ceanothus, a shrub of the buckthorn family.

Scald the teapot first

Scald a crockery teapot. Put in one teaspoonful of tea or one tea-bag for each person. Add fresh, "bubbling" boiling water. Steep for five minutes. Stir, then serve.
